A. Attitude towards the use of new technology

	disagree strongly	disagree	neither	agree	agree totally
Mostly, I quickly get used to new technologies	1,7	6,8	11,9	55,9	23,7
I am a person who also tries new technologies	1,7	6,8	10,2	52,5	28,8

- disagree strongly
- disagree
- neither
- agree
- agree totally
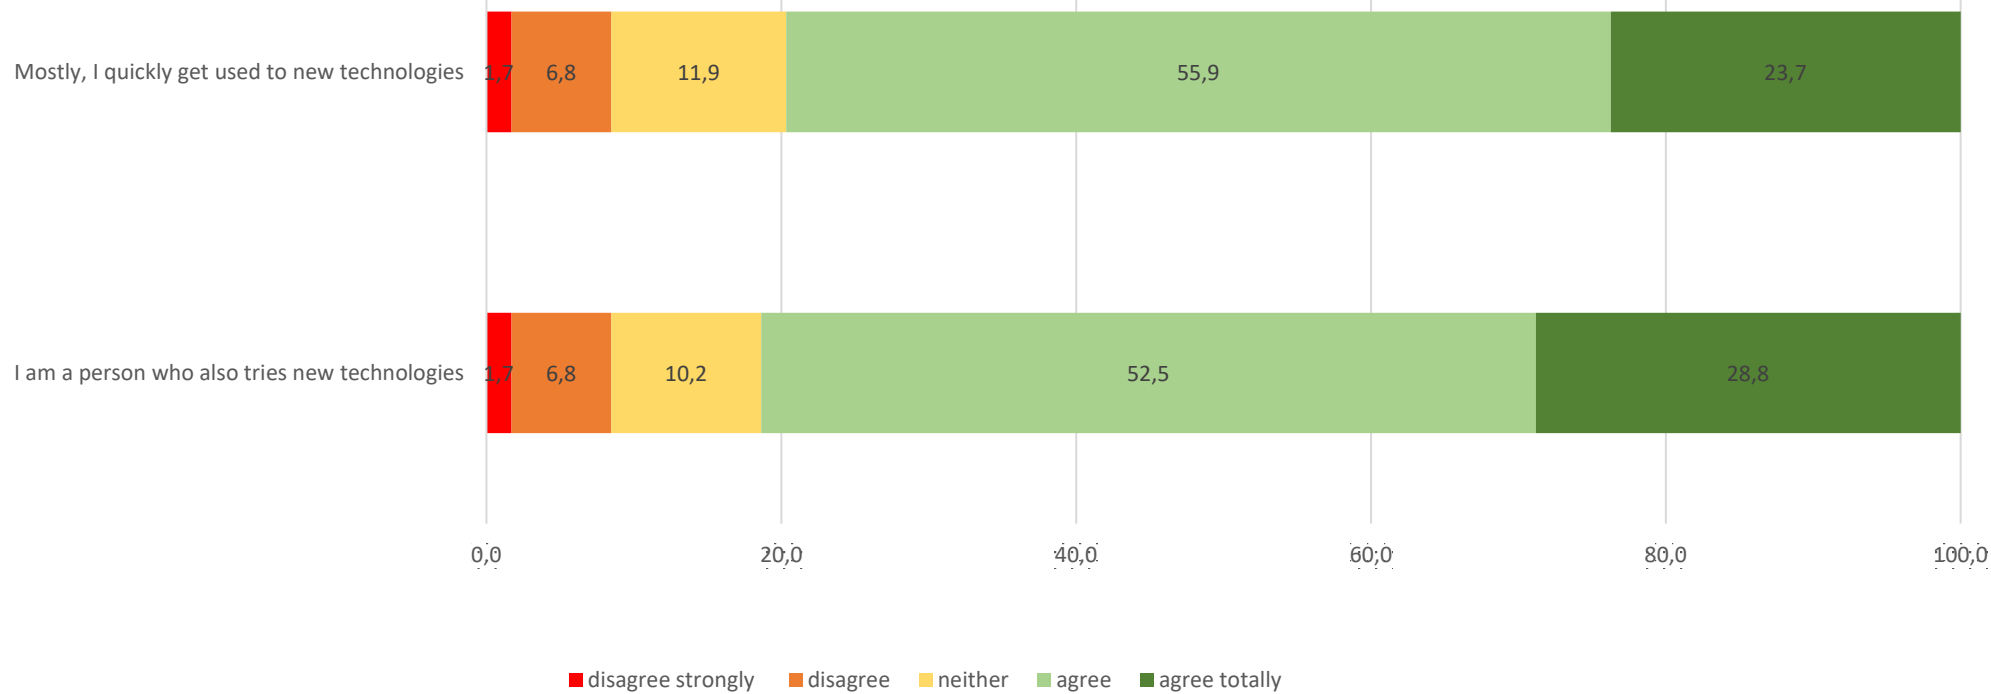

B. Openness towards the use of new technology in daily lives

I would agree...

	not at all	rather not	neutral	is conceivable	definitely
to use a step counter/activity tracker to measure your physical activity	13,6	32,2	11,9	25,4	16,9
to use a medicine box that automatically detects which drugs I have taken	6,8	35,6	11,9	27,1	18,6
that an electronic questionnaire asking for my symptoms	8,5	13,6	8,5	50,8	18,6
that health data would be sent to a secure server upon request?	5,3	8,8	15,8	40,4	29,8
that these health data are automatically transmitted to a secure server?	8,9	17,9	12,5	42,9	17,9
that this data should be available to my attending physicians and nurses for the purpose of monitoring...	1,7 3,4	3,4		50,8	40,7
The knowledge that my caring doctors and nurses can see my data gives me security (for the purpose of...	5,1	5,1	18,6	35,6	35,6
to get feedback on my progress, symptoms and my health behavior	5,3	15,8	14,0	31,6	33,3
... On my smartphone	7,4	3,7	11,1	35,2	42,6
...On my tablet	22,9	11,4	11,4	31,4	22,9
...On my laptop computer	29,3	17,1	14,6	24,4	14,6
...On my SmartWatch	67,6	11,8	14,7	5,9	0
to get SMS to remind me about specific health behaviour	5,3	24,6	8,8	45,6	15,8
The use of pictures and other images to give me health tips and feedback would help me	5,3	21,1	8,8	47,4	17,5
to use a freely available health care application	1,8	10,5	8,8	52,6	26,3
Which device would you prefer to use for the health application?					
My own smartphone	3,6 3,6	5,5		43,6	43,6
A smartphone provided by the clinic	21,3	27,7	6,4	36,2	8,5
My own tablet	28,3	15,2	10,9	28,3	17,4
A tablet provided by the clinic	36,4	34,1	6,8	20,5	2,3
