

Hierarchical TAF1-dependent co-translational assembly of the basal transcription factor TFIID

In the format provided by the authors and unedited

Supplementary Table 1: summary of TFIID co-translational assembly events. Colors correspond to subunits color-code used in this work (related to Figure 1).

Supplementary Table 2: X-linking MS combined table (related to Figure 5)

Summary of TAF1-centered crosslinking-MS metanalysis performed on seven distinct datasets from three different groups: Patel et al., 2018 (TFIID), Scheer et al., 2021 (TFIID), Chen et al., 2021 (TFIID incorporated in different preinitiation complexes: cPICscp, cPICpuma, mPICscp, hPICscp, p53hPICdm2). Only crosslinks found in more than one dataset were considered.
